

**Mayor's Report**

**30 May 2022 – 04 June 2022**

Larry Jacobsen

Short Status Report for this week.

I worked on several things are in process and will be covered in future public forums. They included 2600 South discussions, Budget preparation with staff, EMS planning with Chief Hammer, and Heritage Days.

I also updated the Nibley Weather and River Information that includes links to the weather station next to Ridgeline High School and water data. The new item is a link to real-time flow rates on the Blacksmith Fork River. You can find the new document under June Status Reports.

See you at Heritage Days!

Please call, text, or write anytime.

Larry
